

2022 Reasonable and customary charges by province for paramedical services

Extended health care plans offer paramedical coverage for services performed by eligible providers. Only reasonable and customary amounts are covered under these plans.

Although most paramedical claims are considered *reasonable and customary*, there are instances where the health care provider will choose to charge more. Plan members will be responsible any overages above these charges.

The chart below outlines the *reasonable and customary* charges for each type of health care provider by province either per visit or per length of time.

Treatment Category	BC	AB	SK	MB	ON	QC	NB	NL	NS	PE	NU	YT	NT
Acupuncturist													
Per visit	116	110	91	86	100	90	105	100	115	97	116	116	116
